

**Award of Professional Engineering Services for
Survey of 2018 Major Road Improvements**

June 14, 2016

The Honorable Mayor Ellison and
Members of the City Commission:

Engineering has solicited proposals from the three consultants currently under contract with the city for professional engineering services to provide topographical survey on two streets where major road improvements are being reviewed for construction in 2018 and 2019. Federal funding has been approved for resurfacing of 14 Mile Road from Woodward Avenue to Crooks Road, and the city also intends to survey 14 Mile Road from Greenfield Road to Woodward Avenue. The city also wishes to improve Gardenia Avenue from Main Street to Stephenson Highway if funding is available. Survey proposals from the engineering firms were submitted and evaluated as shown in Table I.

The engineering division recommends that Anderson, Eckstein and Westrick, Inc. of Shelby Charter Township, Michigan be selected to provide professional engineering services for the proposed surveying work at the estimated proposal price of \$77,000. Anderson, Eckstein and Westrick, Inc. has performed survey work for the city in the past and performed satisfactorily. The funding source for this work will be major road fund.

If the city commission is in agreement, the following resolution is recommended for approval:

Be it resolved, the city commission hereby awards the professional engineering services for surveying as outlined in the request for proposals dated May 16, 2016 to Anderson, Eckstein and Westrick, Inc. of Shelby Charter Township, Michigan, currently under contract with the city, and directs staff to issue a purchase order in the amount of \$77,000.

Respectfully submitted,
Matthew J. Callahan, P.E.
City Engineer

Approved,

Donald E. Johnson
City Manager

Table I
Proposal evaluation and award recommendation

Professional Engineering Services
Survey for 2018 Major Road Improvements

Consultant	14 Mile Road Lump Sum	Gardenia Avenue Lump Sum	Total Bid Amount:	Recommended Consultant
